

## INTEGRATION SOLUTION FOR LINPHONE VOICE OVER IP CLIENT SOFTWARE

In office buildings it is quite common to have a reception desk that will answer all incoming telephone calls and receive visitors. When the doors of the building are closed, a video intercom is normally used to communicate with the visitor before opening the door.

When the operator wants to use the same telephone or the computer .to answer the calls it could be interesting to use MEET intercom with Voice over IP Technology and SIP protocol.

## DIRECT CALL TO PC - VOICE OVER IP SOFTWARE

## CALL TO A SIP TELEPHONE THROUGH A CORPORATE SIP SERVER
