

# MEET

Control your **DOBISS** home automation from your **FERMAX** video door monitor

## IP TECHNOLOGY FOR YOUR SMART HOME

Easily integrate both home automation and IP door entry in one smart solution by FERMAX

## MEET. The ideal solution for the greatest challenges.

The FERMAX MEET system is a **100% IP technology** based on a Point-to-Point infrastructure, highly **efficient, flexible and adaptable**.

The devices communicate directly, so MEET does not require central units or servers.

MEET allows the installer to freely assign the range of IP addresses according to the needs of each project, and thus facilitate the control of the networks. MEET offers **HD video quality and digital audio** which ensures **high quality communication**.

MEET offers a **secure and high quality IP door entry** range, easily integrated with your DOBISS home automation.

### DOBISS NXT, that's...

- 100% web-based
- Ready for the future
- Free Cloud access
- Personalised access
- Simple and easy to use
- Control your home from your smartphone
- Compatible with voice commands like Google Assistant
- Compatible with IFTTT for wireless solutions

### DOBISS NXT: future proof home automation

Our NXT server will download **updates regularly** to benefit from the **latest functionalities at all times**. Here's how we ensure that your home is ready for the future!

You **don't need any configuration software**; access both control and configuration **via any web browser**.

Just want to check that the lights are switched off? Want to fire up the central heating quickly before you get home? It's all possible thanks to the **cloud access** included free of charge on your DOBISS NXT server.
