## FERMAX MEET INTEGRATION WITH GIRA G1 TOUCH PANELS

FERMAX

## VIDEO INTERCOM INTEGRATION WITH HOME AUTOMATION

It is possible to reduce costs in home automation projects by integrating the video intercom with the home automation system. FERMAX and GIRA offer a wide portfolio of devices to choose, what makes an ideal choice in any project technical or budget requirements.

The integration is based in video OUTDOOR PANELS, that can call any SIP compatible device or user interface such as **GIRA G1** touch panels. It is also possible to use **FERMAX WIT** indoor intercom monitor in combination with G1 touch panels, in the same apartment or in different apartments.

On top of that, the system is full compatible with **call divert app MEET ME**, so that calls can be answered from the smartphone without any additional call divert gateway.

## FUNCIONALIDADES

**HOME AUTOMATION CONTROL AND VIDEO INTERCOM FROM THE SMARTPHONE WITH DEDICATED APPS**

**RTSP VIDEO STREAM CAN BE SENT IN PARALLEL TO A CCTV NVR RECORDER**

**SECONDARY DOOR OPENING ICON**

**IP CAMERAS VISUALIZATION (up to 4 different cameras)**

## BENEFICIOS

◆ It is possible to combine in the same project video intercom panels with different user terminals in each apartment. It is possible to have NEO or WIT monitors in some apartments and GIRA G1 in others.

◆ Integration and configuration time is reduced thanks to IP technology and its cabling system.

◆ Call divert function is something included by default in FERMAX monitors without additional costs, or it can be purchased separately (no recurrent fees) if GIRA G1 is to be used.

◆ MEET ME call divert is very easy to set up. Each license is valid for 8 smartphones that will ring at the same time.

## INSTALLATION

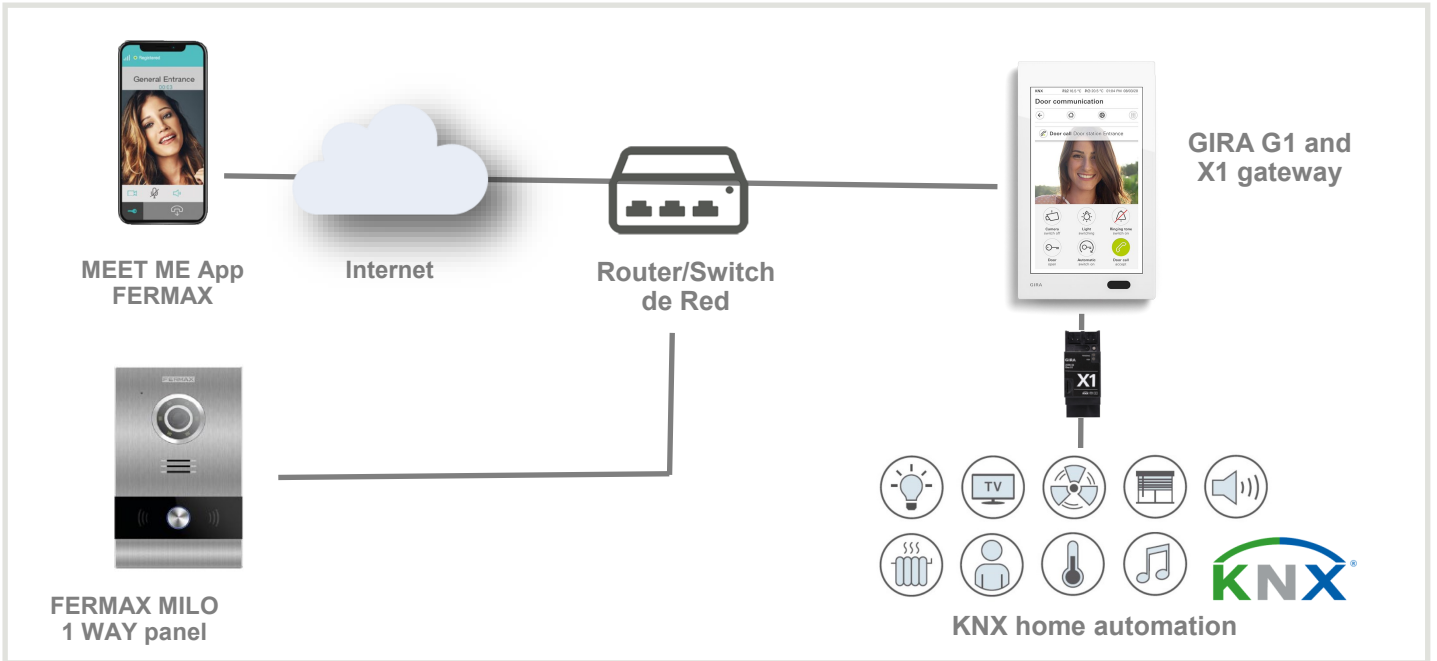

MEET interoperability is based in GIRA G1 touch panel.

If there are no MEET monitors, it is possible to acquire Ref.1496 MEET ME CALL DIVERT LICENSE separately.

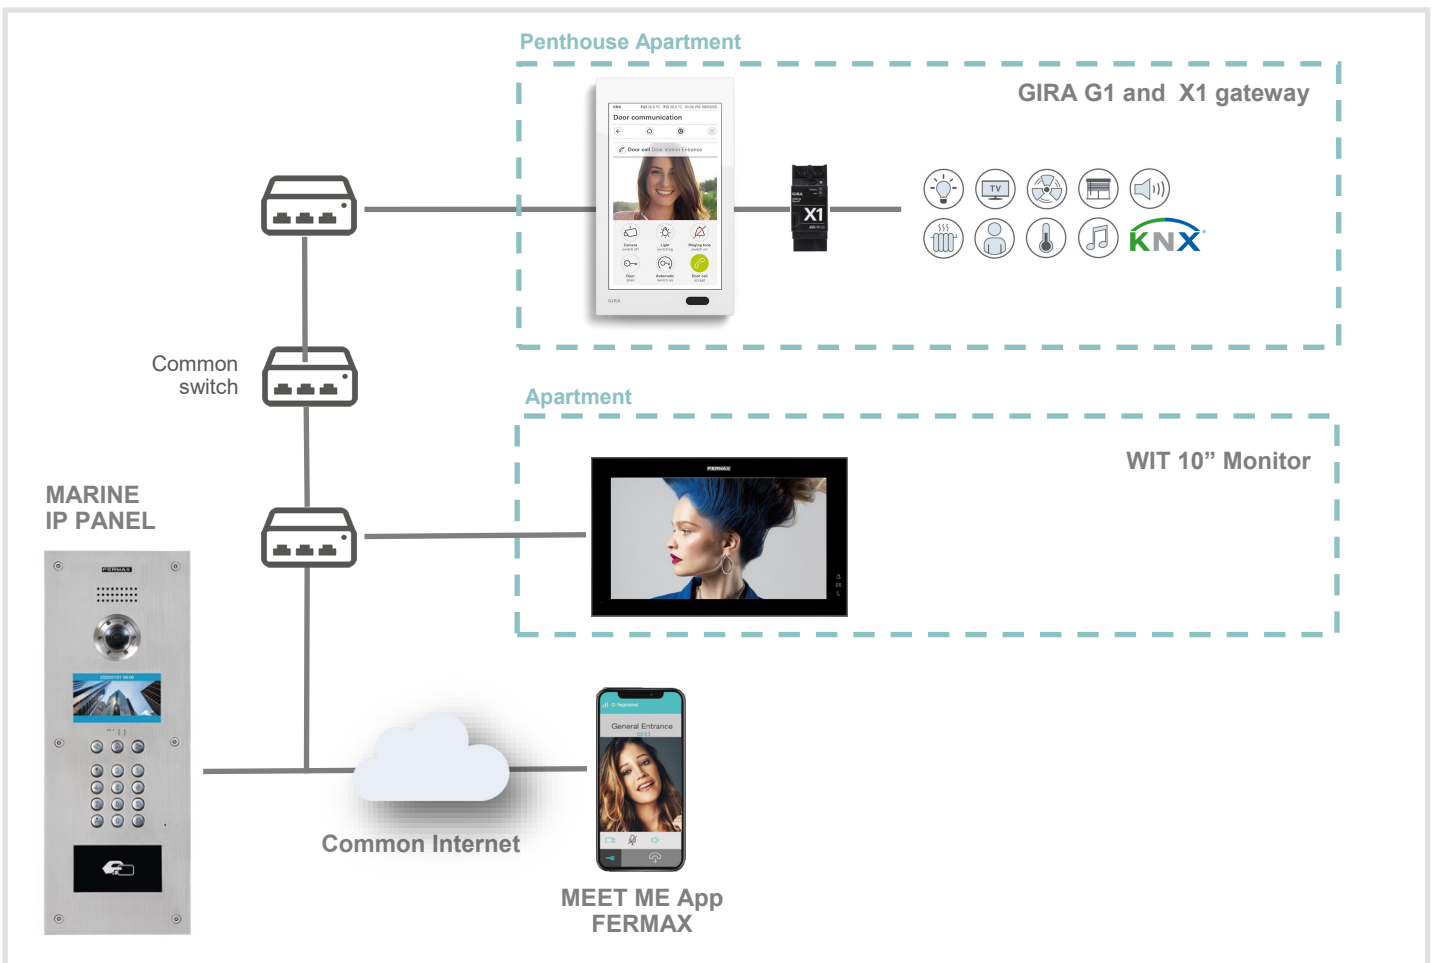

## WHY FERMAX?

FERMAX is a worldwide reference in the video intercom industry. The products have been installed in the most emblematic projects in the world. FERMAX Distribution network, which is present in more than 70 countries, will provide the best support and assistance.
